SUBJECT INDEX

Alcohol solutions,
Open and cyclic multimers in alcohol solutions. A quantitative model for the association and the permittivity, 253
Amino acids,
Influence of methylation of nucleic acid purine bases on their interactions with amino acids through the carboxylic group, 1
Amorphous solids,
Dielectric behaviour of H-bonded liquids and amorphous and crystalline solids, 351
Amorphous water,
Calorimetric glass transitions in the amorphous forms of water: a comparison, 403
Aqueous electrolytes,
Ice nucleation in aqueous electrolytes by light scattering observation, 421
Aqueous solution,
Neutron diffraction studies of ions in aqueous solution, 281
Aqueous solutions,
Inferences on dynamic water structure in aqueous solutions from diffusion measurements, 305
N-Aryl-1-4-benzoquinone imines,
ESR spectra of free radicals derived from *N*-aryl- and *N*-sulphonylaryl-1,4-benzoquinone imines, 57

$Ca(NO_3)_2 \cdot 4H_2O$,
Raman and Brillouin scattering from electrolytic solutions, 291
Carbonyl derivatives,
Approche théorique de la corrélation "fréquence $\delta(CH_2)$-structure" mise en évidence dans les dérivés carbonylés, 107
Carboxylic group,
Influence of methylation of nucleic acid purine bases on their interactions with amino acids through the carboxylic group, 1
$CdCl_2$,
Raman and Brillouin scattering from electrolytic solutions, 291
Crystalline solids,
Dielectric behaviour of H-bonded liquids and amorphous and crystalline solids, 351
Cyclic multimers,
Open and cyclic multimers in alcohol solutions. A quantitative model for the association and the permittivity, 253

Dielectric behaviour,
Dielectric behaviour of H-bonded liquids and amorphous and crystalline solids, 351
Difluorodiiodomethane,
The gas-phase structure of difluorodiiodomethane, CF_2I_2, 103
Dihalopropanes,
Low-frequency torsional oscillations in 1,3-dihalopropanes $XH_2C-CH_2-CH_2Y$, 79
Diphenylacetyl-1,3-indandione-1-hydrazone,
Conformational analysis of 2-diphenylacetyl-1,3-indandione-1-hydrazone and its derivatives, 47
DOH·OHD,
Structural and isotopomeric isomerism of hydrogen-bonded complexes, 181

Electrolytic solutions,
Raman and Brillouin scattering from electrolytic solutions, 291

Glass transitions,
Calorimetric glass transitions in the amorphous forms of water: a comparison, 403
Glassy aqueous solutions,
H-bond dynamics in well-characterized supercooled and glassy aqueous solutions, 315

$(H_2O)_2$,
The hydrogen bond, and the structure and properties of H_2O and $(H_2O)_2$, 111

HDO,
Light absorption saturation studies of H_2O and HDO near 3400 cm^{-1} with intense laser radiation, 271
$(HF)_2$,
The hydrogen bond, and the structure and properties of H_2O and $(H_2O)_2$, 111
HOD·OHD,
Structural and isotopomeric isomerism of hydrogen-bonded complexes, 181
Hydrogen sites,
Vibrational density of states of the hydrogen sites in hydrogen-bonded molecular solids, 385
Hydrogen-bonded liquids,
Structural studies of water and other hydrogen-bonded liquids by neutron diffraction, 193
Hydrogen-bonded solids,
A model for low frequency Raman scattering in hydrogen-bonded solids, 395

Ice,
A model for low frequency Raman scattering in hydrogen-bonded solids, 395
Ice nucleation,
Ice nucleation in aqueous electrolytes by light scattering observation, 421
Ice-like polycrystalline samples,
Vibrational density of states of the hydrogen sites in hydrogen-bonded molecular solids, 385
Ionic hydration,
Neutron diffraction studies of ions in aqueous solution, 281
Isotopomeric isomerism,
Structural and isotopomeric isomerism of hydrogen-bonded complexes, 181

$LiCl·RH_2O$,
H-bond dynamics in well-characterized supercooled and glassy aqueous solutions, 315
Liquid water,
Geometrical aspects of self diffusion in liquid water, 171
Geometrical dynamics simulations of liquid water: Voronoi polyhedra and network topology, 259

Methanol,
H-bond in methanol: a molecular dynamics study, 147
Molecular glass,
High frequency excitations in a molecular glass, 413

$Na_2SeO_4·H_2SeO_3·H_2O$,
Structure and polarized IR and Raman spectra of $Na_2SeO_4·H_2SeO_3·H_2O$ crystal, 13
Network topology,
Molecular dynamics simulations of liquid water: Voronoi polyhedra and network topology, 259
Nucleic acid purine bases,
Influence of methylation of nucleic acid purine bases on their interactions with amino acids through the carboxylic group, 1

Open multimers,
Open and cyclic multimers in alcohol solutions. A quantitative model for the association and the permittivity, 253

Peptide disulfide bridges,
Vibrational studies of the disulfide group in proteins. Part IV. SS and CS stretch frequencies of known peptide and protein disulfide bridges, 89
Phases of water,
Some aspects of hydrogen bonding in the phases of water, 337
Protein disulfide bridges,
Vibrational studies of the disulfide group in proteins. Part IV. SS and CS stretch frequencies of known peptide and protein disulfide bridges, 89
Proteins,
Vibrational studies of the disulfide group in proteins. Part IV. SS and CS stretch frequencies of known peptide and protein disulfide bridges, 89
Protonic delocalisation,
Treatment of protonic delocalisation in water by the complex scaling method; theory and experimental results, 231

Self diffusion,
Geometrical aspects of self diffusion in liquid water, 171

Simple fluids,
Non-Gaussian statistics of simple fluids and associated liquids, 119
Statics,
Study of statics and dynamics of hydrogen bonds using neutron scattering, 329
Structural isomerism,
Structural and isotopomeric isomerism of hydrogen-bonded complexes, 181
N-sulphonylaryl-1,4-benzoquinone,
ESR spectra of free radicals derived from *N*-aryl- and *N*-sulphonaryl-1,4-benzoquinone imines, 57
Supercooled aqueous solutions,
H-bond dynamics in well-characterized supercooled and glassy aqueous solutions, 315
Supercooled water,
The freezing of supercooled water, 245

Voronoi polyhedra,
Molecular dynamics simulations of liquid water: Voronoi polyhedra and network topology, 259

Water,
Dynamics of water studied by coherent and incoherent inelastic neutron scattering, 213
Inferences on dynamic water structure in aqueous solutions from diffusion measurements, 305
Light absorption saturation studies of H_2O and HDO near 3400 cm^{-1} with intense laser radiation, 271
Structural studies of water and other hydrogen-bonded liquids by neutron diffraction, 193
The hydrogen bond, and the structure and properties of H_2O and $(H_2O)_2$, 111
Treatment of protonic delocalisation in water by the complex scaling method: theory and experimental results, 231
